

ANNUAL SUPERANNUATION SCHOLARSHIP/CADETSHIP 2008

'In the 21st century, specialisation is the only way to stand out from the crowd'

SuperGuardian is an innovative, market leading Chartered Accountancy firm with a specialisation in the provision of services to self managed super funds (SMSFs) around Australia.

SuperGuardian offers a unique opportunity for a graduate to work with highly skilled and motivated people, at the forefront of the SMSF industry. We pride ourselves on offering a premium service with superior technical expertise.

SMSFs make up approximately 25% of the total superannuation pool of assets in Australia. Since 1994, the SMSF industry has grown at a compound rate of 25% each year with approximately 2,000 new SMSFs set up every month. This rate has increased following the recent changes to the superannuation legislation and is an exciting time to be in the industry.

The Annual Superannuation Cadetship 2008 is available to university graduates who are completing their studies in 2007. The cadetship is for a minimum 3 year period and is available to students who are permanent residents or citizens of Australia.

At the completion of the cadetship, the successful candidate will have the opportunity for ongoing employment and progression to a senior role with SuperGuardian, or the associated Chartered Accounting firm Jaquillard Minns.

Nature of Scholarship/Cadetship

The successful applicant will participate in a 3 year development program, with both practical hands-on-training, and a strong focus on technical development.

The cadetship consists of:

- Full time employment with SuperGuardian for a minimum period of 3 years
- Full scholarship to the Certificate in Self Managed Superannuation Funds with the University of Adelaide

- Membership with SPAA and attendance at SPAA technical training sessions and workshops
- Full support to the CA Program with the Institute of Chartered Accountants
- Exposure to financial markets and wealth management strategies
- Hands on, intensive training in all aspects of SMSF accounting
- Potential support for an Honours thesis on Superannuation

There is significant opportunity beyond the cadetship to develop a specialisation and long term career path in superannuation or chartered accounting.

Eligibility and minimum academic standards

The applicant shall have successfully completed a degree in the area of commerce, economics, finance or accounting – and have obtained above average academic results.

Application process

Applications should include a letter outlining your reasons for applying for the cadetship, along with a current resume and a copy of your academic record.

Please forward your application to:

The Directors
SuperGuardian Scholarship
GPO Box 1215
Adelaide SA 5001

First round interviews will be conducted in September 2007.
